

52 Things to Support your Child's
Speech and Language Skills.

YO, HO, HO! It's Treasure Hunt Time.

Send your child on a treasure hunt, around the house or garden. The idea is that they have to remember a list of items, touching a finger as you say each thing will help secure their memory.

Make it easier; ask them to find three things or maybe four.

Make it harder; they have to remember the items, waiting for a minute or two before setting off to find them.
