## Website for the App

[www.hearbuilder.com](http://www.hearbuilder.com) – tablet, laptop or computer in classroom or at home.

## SLCD team's thoughts.

Hilary says...

"I love the fact that it is so interactive and has so many different levels so that it meets all our children's needs..."

It does have a slight American accent...."

Alison says...

"I really liked this app - the four areas of learning are all really useful, and with up to 20 levels for each concept, everything is structured, as each new step builds upon the last."

Amanda says...

"I love the games where the players embark on a secret mission, they are challenging, fun, interactive and very rewarding. Great for holding our children's interest whilst helping them to master new skills".
